**COLLECTION STATION LOCATION:
Seacoast Utility Authority Admin/Reception lobby**

We're going pink to celebrate survivors, share support and spread breast cancer awareness.

GOING *Pink* IN OCTOBER

In past years for our Health & Wellness topics, Seacoast has made it a point to acknowledge the fall month of **October** as "**Breast Cancer Awareness Month.**"

With the assistance of Jupiter Medical Center & the American Cancer Society, we have been able to distribute excellent informative "awareness" information & brochures to SUA employees. We encourage you to read these. **October** is "awareness month"... but remember, every month is important for all to be mindful & care for themselves.

A NEW idea for this years' **October** Health & Wellness program came about. We consulted with the oncology Social worker & Marketing coordinator at Jupiter Medical Center. With their positive encouragement, we are going for it!

During the entire month of **October**, Seacoast is hosting a **HAT & HEADWEAR DRIVE.**

This event is twofold. We continue our "**Breast Cancer Awareness**" for both women & men. And, as a group, Seacoast employees can provide a community service, a bit of comfort, style & confidence to **women, men, teens & children** who have had some level of hair loss associated with undergoing cancer treatments.
