

# Seacoast Utility Authority

Flushing Campaign

December 2, 201

On Thursday, December 2nd, Seacoast will perform a system flush to the main along Ave of The Masters, south to Hiatt Drive (First Stage) and west, to Ryder Cup Blvd (Second Stage). We do not anticipate that customers will experience water quality impacts associated with this flushing, and there is no need to curtail water use, boil drinking water, or take any other precautionary steps. However, if you do experience cloudy water, taste, odor or other water quality issues, we ask that you call us immediately at 561-627-2920.
