# Seacoast Utility Authority

Mailing Address:  
4200 Hood Road  
Palm Beach Gardens, FL 33410-2174

April 22, 2026

Honorable Chair, Members of the  
Seacoast Utility Authority Board, and the Customers of  
Seacoast Utility Authority  
Palm Beach Gardens, Florida

We are pleased to submit the Annual Comprehensive Financial Report with the Independent Auditor's Report of Seacoast Utility Authority (the Authority) for the fiscal years ended September 30, 2024, and 2025. The Finance Department, in accordance with state statutes, the Bond Trust Resolution, and U.S. generally accepted accounting principles for governments, prepared this report.

The Authority's financial statements have been audited by Mauldin & Jenkins, LLC, a licensed certified public accounting firm. The goal of the independent audit was to provide reasonable assurance that the Authority's financial statements for the fiscal years ending September 30, 2024, and 2025 are free of material misstatement. The independent audit involved examining on a test basis, evidence supporting amounts and disclosures in the financial statements, assessing the accounting principles used and the significant estimates made by management, and evaluating the overall financial statement presentation. Based upon the audit, the independent auditor concluded that there was a reasonable basis for rendering an unmodified opinion that Seacoast Utility Authority's financial statements for the fiscal years ended September 30, 2024, and 2025 are fairly presented in conformity with generally accepted accounting principles. The independent auditor's report is located at the front of the Financial Section of this report on page 1.

However, responsibility for both the accuracy of the presented data and the completeness and fairness of the presentation, including all disclosures, rests with the Authority. The Authority's Finance Department is responsible for the overall operation of the Authority's accounting system and for establishing and maintaining the Authority's internal control structure. The Authority's internal control system is routinely monitored to ensure its adequacy, and if any material weaknesses are identified, corrective action is taken to address them. Nevertheless, internal controls inherently have limitations, and the Authority, at times, must consider the cost of controls and the benefits to be derived, as the objective is to provide reasonable, rather than absolute, assurance that the financial statements are free of any material misstatements. To the best of our knowledge and belief, the data, as presented, is accurate in all material respects and is reported in a manner designed to fairly present the financial position and results of operations of the Authority. All disclosures necessary to enable the reader to gain an understanding of the Authority's financial activities have been included. Significant financial information has been prepared in accordance with financial reporting promulgated by the Governmental Accounting Standards Board and should be considered an integral part of the financial information presented.

## FINANCIAL PERFORMANCE

The Authority has adopted the provisions of GASB 34, "Basic Financial Statements – and Management Discussion and Analysis – for State and Local Governments". GASB 34 requires the Management's Discussion and Analysis (MD&A) of the Authority's financial performance to be included as an integral part of the financial statements. The Authority's MD&A can be found immediately following the Independent Auditors' Report.

## **THE AUTHORITY**

Seacoast Utility Authority was created as a separate legal entity pursuant to an “Inter-local Agreement” entered into, by and among the City of Palm Beach Gardens, Palm Beach County, the Village of North Palm Beach, the Town of Lake Park and the Town of Juno Beach, all in Florida, under and in accordance with the provision of Chapter 163, Florida Statutes. In compliance with the requirements of such chapter, the Inter-local Agreement was filed with the Clerk of the Circuit Court of the Fifteenth Judicial Circuit of Florida, in and for Palm Beach County, on August 24, 1988.

On December 20, 1988, pursuant to the Inter-local Agreement, the Authority acquired, by eminent domain, substantially all the utility assets of Seacoast Utilities, a water and wastewater utility formerly owned and operated as a separate division by the John D. and Catherine T. MacArthur Foundation. The Authority now owns, operates, and maintains the utility.

The governance of the Authority resides in the Authority Board, which is comprised of five (5) members, one member appointed by each of the participating public entities. The members of the Authority Board serve for terms of four (4) years or until replaced by action of the respective members of the participating public entities. Voting by the Authority Board members is by weighted percentage, as specified in the Inter-local Agreement.

## **SYSTEM DESCRIPTION**

Seacoast Utility Authority, a regional water and wastewater utility, furnishes potable water services to 54,814 households and 3,241 commercial establishments. Wastewater collection, treatment, and disposal services are provided to 51,573 residential dwellings and 1,955 businesses. The Authority’s service area, which covers approximately 65 square miles, consists of certain unincorporated areas of Palm Beach County and the incorporated areas of the City of Palm Beach Gardens, the Village of North Palm Beach, and the Town of Lake Park, and a portion of the unincorporated areas of the Town of Juno Beach, all in South Florida.

## **ECONOMIC CONDITIONS AND OUTLOOK**

The Authority service area is nearly built out. New meter connections during FY2024 were 909, relatively close to the 995 set in FY2024. The recent commencement of large-scale land development projects has accelerated and will sustain system growth over the next few years. Most new connections are in the Authority’s Western Service Area, which is served through bulk service connections with Palm Beach County Water Utility Department.

Recognizing the need to synchronize revenue with rising costs, the Authority enacted an annual rate-indexing ordinance in 2009. This ordinance authorizes rate adjustments each October 1st, consistent with the U.S. Department of Labor Water and Sewer Maintenance Index, allowing the Authority Board to apply a lesser percentage if it chooses.

## **MAJOR INITIATIVES**

The Authority’s program to replace at-risk water pipeline segments weakened by age or wear is fully underway. The Authority has awarded engineering and/or construction contracts for the most vulnerable areas and, in FY 2026, will accelerate community pipeline replacement projects prioritized based on pipeline age, material, and repair history.

As critically important wastewater infrastructure ages and demand for irrigation-quality reclaimed water increases, the Authority has invested in replacement equipment that is more durable, efficient, and

technologically advanced. Several PGA Regional Wastewater Reclamation Facility projects were approaching completion in FY2025 that will expand recycling capability, improve worker safety and materials storage areas, and enhance instrumentation, control, and data reporting systems. Similar projects, including major lift stations, sludge recirculating and dewatering equipment, and plant headworks renovations, are presently in various stages of planning and construction.

## **LONG-TERM FINANCIAL PLANNING**

The Authority's annual operating budget includes a three-year projection of revenue, expenses, and capital needs. These estimates incorporate growth projections, inflation, anticipated changes in water, sewer, and reclaimed water flow, board-approved multi-year capital improvement programs, targeted renewal and replacement projects, and an allowance for asset renewal and replacement costs not specifically identified.

The Authority's current rate structure and cash reserves are sufficient to fund asset replacement costs, precluding the need for debt financing. The three-year budget covers operating costs for the water treatment plant, sewer plant, and related infrastructure, as well as the essential renewal and replacement of other Authority assets. Planned indexed revenue increases consistent with the Board's direction are also included. Current Board-approved budgets can be accessed at [www.sua.com](http://www.sua.com).

Consistent with prudent financial management practices, the Authority's Cash Reserve Policy requires the Authority to maintain a minimum of cash reserves equal to 90 days of operating and debt service costs. The Authority's current financial position complies with this policy.

## **ACCOUNTING SYSTEM AND BUDGETARY CONTROL**

The Authority's financial reporting is on an accrual basis. In developing and evaluating the Authority's accounting system, the adequacy of internal accounting controls is paramount. Internal accounting controls are designed to provide reasonable, but not absolute, assurance regarding (1) the safeguarding of assets against loss from unauthorized use or disposition; and (2) the reliability of financial records for preparing financial statements and maintaining accountability for assets. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be achieved, and (2) the evaluation of costs and benefits requires estimates and judgments by management. We believe the Authority's internal accounting controls adequately safeguard assets and provide reasonable assurance of the proper recording of financial transactions.

The Authority maintains budgetary controls at the department level, with line-item expenses managed through issuing approved purchase orders. The objective of these controls is to help ensure adherence to the legally adopted operating and capital budget approved by the Authority Board. As demonstrated by information provided in the Annual Financial Report, the Authority continues to meet its responsibility for sound financial management.

The Government Finance Officers Association (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to Seacoast Utility Authority for its annual financial report for the September 30, 2024, fiscal year. This was the 21<sup>st</sup> consecutive year that Seacoast Utility Authority achieved this prestigious award. Requirements to receive a Certificate of Achievement include the government publishing an easily readable and efficiently organized Annual Comprehensive Financial Report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for only one year. We believe that our current annual financial report continues to meet the Certificate of Achievement Program's requirements, and we are submitting it to the GFOA to determine its eligibility for another certificate.

## ACKNOWLEDGEMENTS

The preparation of the Annual Comprehensive Financial Report on a timely basis could not have been accomplished without the dedicated efforts of the entire Authority staff. Their assistance and cooperation have facilitated the preparation of a report that provides a comprehensive view of the Authority's results of operations and its strong financial position.

We want to thank the Authority Board and customers of Seacoast Utility Authority for their continued interest, support, and assistance in enabling the Authority to achieve its goal of providing quality water and wastewater service in a cost-effective and responsible manner.

Respectfully submitted,

## Independent Auditor's Report

**Board of Directors  
Seacoast Utility Authority  
Palm Beach Gardens, Florida**

### **Report on the Audit of the Financial Statements**

#### ***Opinions***

We have audited the accompanying financial statements of the Seacoast Utility Authority (the "Authority") as of and for the years ended September 30, 2025 and 2024, and the related notes to the financial statements, which collectively comprise the Authority's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the Authority as of September 30, 2025 and 2024, and the respective changes in financial position and cash flows thereof for the years then ended in accordance with accounting principles generally accepted in the United States of America.

#### ***Basis for Opinions***

We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Authority and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### ***Responsibilities of Management for the Financial Statements***

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Authority's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

***Auditor's Responsibility for the Audit of the Financial Statements***

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Authority's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Authority's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

***Required Supplementary Information***

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis (on pages 4 through 16), the Schedule of Changes in Total OPEB Liability and Related Ratios on page 45 be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

**Supplementary Information**

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Authority's basic financial statements. The accompanying comparative schedules of operating revenues – budget and actual, the comparative schedules of operating expenses – budget and actual, and comparative schedule of operating expenses, are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the comparative schedules of operating revenues – budget and actual, the comparative schedules of operating expenses – budget and actual, and comparative schedule of operating expenses are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

**Other Information**

Management is responsible for the other information included in the annual report. The other information comprises the introductory and statistical sections but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

**Other Reporting Required by Government Auditing Standards**

In accordance with *Government Auditing Standards*, we have also issued our report dated April 14, 2026, on our consideration of the Authority's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Authority's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Authority's internal control over financial reporting and compliance.

## MANAGEMENT'S DISCUSSION AND ANALYSIS

The Management's Discussion and Analysis (MD&A) intends to highlight the Authority's financial activities for the fiscal years ended September 30, 2025, and 2024. This information should be read with the accompanying audited financial statements.

### **Overview of the Financial Statements**

Seacoast Utility Authority (the Authority) uses a single enterprise fund to provide water and wastewater services. The Annual Comprehensive Financial Report is presented in four sections: Introductory, Financial, Statistical, and Compliance. The Introductory Section includes a Transmittal Letter, a List of Principal Officials and Staff, and the Authority's Organizational Chart. The Financial Section consists of the MD&A, audited basic financial statements and accompanying notes, and the report of the independent certified public accountant on the financial statements. The Statistical Section includes unaudited financial and demographic information, and the Compliance Section includes supplemental auditors' reports.

The MD&A represents management's examination, analysis, and report on the Authority's financial condition and performance. The financial statements and other available operational and financial information, budget, debt statements, etc., were used for this analysis. The MD&A should be used with the audited financial statements and accompanying notes to those statements.

### **Required Financial Statements**

The Authority's financial statements and accounting methods closely resemble those of a business operating like an Enterprise Fund. These statements provide short and long-term financial information about its activities. The required financial statements include a Statement of Net Position, a Statement of Revenues, Expenses, and Changes in Net Position, a Statement of Cash Flows, and Notes to Basic Financial Statements.

The Statement of Net Position includes all of the Authority's assets and liabilities and provides information on the investment in those assets. It presents the financial position on a full accrual cost basis. It can be used for analyses of liquidity and the structure of the Authority's assets and liabilities. Over time, increases or decreases indicate whether the financial position is improving.

The Statement of Revenues, Expenses, and Changes in Net Position contains the current year's revenue and expenses. This can be used to evaluate operations during the past year by comparing operating revenue with income and showing other income sources and the overall effectiveness of cost recovery. While the Statement of Net Position discussed offers a snapshot of balances as of a specific date, the Statement of Revenues, Expenses, and Changes in Net Position focuses on changes in the fiscal operating period.

The last required statement is the Statement of Cash Flows. This statement shows cash activity during the fiscal year. Divided into three categories, it presents cash flows from operating, capital, and investing activities. This statement can answer where the cash came from, how that cash was used, and the resulting cash balance change from the previous reporting period.

Finally, the accompanying Notes to the Financial Statements provide required disclosures and other information pertinent to understanding and explaining the financial statements. These notes contain accounting policies, explanations, descriptions of significant account balances, expanded detail on summarized data in the financial statements, and required disclosures about the Authority.

The analysis below shows the Authority's net position (Table 1) and changes in net position (Table 2) during the year in a condensed format.

Table 1  
Net Position  
(Condensed)

|                                     | FY2025                | FY2024                | % Change | FY2023                | %       |

**Summary of Financial Position and Results of Operations (FY2023–FY2025)**

The Authority's financial position continued to improve over the three-year period ending Fiscal Year 2025 (FY2025). Total Net Position increased consistently due to stable operating revenues, continued capital investment, including significant donated infrastructure, declining long-term debt obligations, and prudent financial management. Net Position reached **\$480.5 million** at the close of FY2025, an increase of **9.1%** over FY2024 and **19%** since FY2023. These changes reflect the Authority's commitment to maintaining a sound financial framework while addressing the service area's long-term infrastructure needs.

## Statement of Net Position

### *Assets*

Total assets increased steadily by **15.5%** from FY2023 through FY2025, with current assets increasing by 27.8% over the same period. Increases are attributable primarily to higher cash and investment balances, significant contributions of developer-constructed infrastructure, and capital improvements completed under the Authority's long-term asset renewal and replacement program. Net capital assets rose by approximately **\$39 million** across the three-year period, reflecting both new infrastructure placed into service and ongoing rehabilitation of existing assets.

### *Liabilities*

Total liabilities decreased significantly from FY2023 to FY2024 following the retirement of all remaining Bond Debt. The final payment on the 2016B Bonds was made in FY2024, further lowering interest costs and strengthening the Authority's overall financial position. Although current liabilities increased modestly in FY2025 due to normal year-end operating and capital infrastructure activity, total liabilities remained comparatively low. Lease and Subscription-Based Information Technology Arrangement (SBITA) liabilities continued to decline as scheduled obligations were satisfied.

### *Deferred Outflows and Inflows*

Deferred Outflows and Deferred Inflows of Resources fluctuated from FY2023 to FY2025 due to actuarial changes associated with the Authority's GASB 75 OPEB obligations and ongoing accounting requirements under GASB 87 (Leases). These annual variations are consistent with established reporting standards.

## Statement of Revenues, Expenses, and Changes in Net Position

### *Operating Revenues*

FY2025 Operating revenues increased by approximately **\$5.4 million** from FY2024 and 13.4% from FY2023 through FY2025. This growth resulted primarily from board-approved indexed rate increases of **4.0% in FY2023, 4.9% in FY2024, and 5.2% in FY2025**, along with a contractually authorized adjustment for a master-metered customer. Additional revenue was generated due to increased water consumption attributable to an on-site bottling operation at the same customer's property.

### *Investment Income and Market Value Changes*

Investment income increased significantly during the period as higher interest rates enabled the reinvestment of maturing low-yield securities at more favorable returns. Interest earnings have increased by more than 300% since FY2023. Contributing to this growth, the Authority implemented a sweep account structure in early FY2024 to invest idle operating cash, generating over **\$200,000** of additional interest income in FY2025 alone while preserving daily liquidity for operational requirements.

Consistent with standard governmental reporting, the Authority recognized unrealized market-value losses during periods of rising interest rates, as lower-yield investments were temporarily valued below par. These losses are expected to diminish as holdings mature and are replaced with higher-yield securities. Investment decisions remain guided by preservation of principal, liquidity management, and compliance with statutory requirements.

### ***Operating Expenses***

Operating expenses, including depreciation, increased due to inflationary pressures on materials, chemicals, and labor. Cost-of-living adjustments for personnel and rising costs for bulk water and wastewater services in the western service area also contributed to the overall increases. Purchased water and wastewater expenditures rose from **\$4.3** million in FY2023 to **\$4.4** million in FY2024 and to **\$5** million in FY2025. Retail rates were adjusted to ensure adequate recovery of these higher wholesale costs.

Depreciation expense continued to rise from FY2023 to FY2025, reaching \$23.2 million in FY2025, as new or donated assets were placed into service and older infrastructure was replaced. Higher construction costs, significant donated infrastructure from new developments, and the addition of shorter-lived mechanical components contributed to the upward trend in depreciation.

### ***Non-Operating Revenues and Capital Contributions***

Grant revenue received during FY2023–FY2025 consisted primarily of FEMA reimbursements. These revenues are inherently variable and are recognized as eligible recovery expenditures are approved.

Significant developer contributions and connection fee revenues fluctuated in alignment with construction levels within the Authority’s western service area. While it has been typical to record donated infrastructure every fiscal year, during FY2025, it was discovered that significant assets already in service had not been recorded. The process to record these assets has been evaluated, and all assets known as of the end of FY2025 have been recorded. Furthermore, while development activity remains, these revenues are contingent on developer timelines, so future revenues may fluctuate, and over time, this source of non-cash revenue is expected to decline as the region approaches full build-out.

### ***Interest Expense and Debt Service***

Interest expense decreased annually from FY2023 through FY2025 due to the Authority’s reduced outstanding bond obligations, consistent with the objectives of the December 2016 bond refunding. The final payoff of the 2016B Bonds in FY2024 further reduced future interest obligations and improved the Authority’s long-term financial flexibility.

### ***Asset Disposal Activity***

Gains and losses on the disposal of capital assets continued to vary year-to-year, consistent with the Authority’s asset management and replacement cycle. While proceeds from surplus asset sales are maximized to the extent possible, gains are infrequent. Losses recorded during FY2023 and FY2024 reflected the retirement of assets with remaining undepreciated values.

### ***GASB Implementations***

The Authority continued to comply with applicable governmental accounting standards, implementing the following in FY2025:

- **GASB 102** – Certain Risk Disclosures
- **GASB 103** – Financial Reporting Model Improvements
- **GASB 104** – Disclosure of Certain Capital Assets

## Conclusion

The Authority's financial performance from FY2023 through FY2025 reflects continued operational stability, consistent revenue growth, disciplined capital investment, and a significant reduction in long-term liabilities. The Authority remains financially well-positioned to support the water and wastewater needs of its service area and to continue reinvesting in critical system infrastructure.

## Financial Highlights & Analysis

### Operating Revenues

The following chart depicts the Authority's Operating Revenues for the fiscal years ending September 30, 2025, and 2024.

Operating revenues increased across most service categories from FY2024 to FY2025, reflecting both indexed rate adjustments and sustained customer demand. **Water Service Charges** rose 8.13%, driven primarily by the Authority's inflationary index adjustments of 4.9% in FY2024 and 5.2% in FY2025, along with increased bulk water deliveries to the western service area. **Wastewater Service Charges** increased 4.59%, consistent with approved indexed rate changes but moderated by set residential billing caps. **Reclaimed Water/Effluent Charges** grew 10.99%, reflecting annual indexed rate adjustments allowed for in multi-year contractual agreements; however, consumption remained weather-sensitive due to the use of reclaimed water for irrigation of HOA common areas and golf courses.

**Guaranteed Revenue Charges**, which are dependent on land development activity and meter set timing, increased by 11.37% from FY2024, reflecting continued—but gradually slowing—development activity within the Authority's western service area. As the region matures toward build-out, these revenues are expected to moderate. **Other Charges**, a relatively small revenue category made up of fire line protection fees, land development-related fees, private system maintenance charges, and various administrative fees, decreased modestly due to normal year-to-year variation among a limited customer base.

## Operating Expenses

The Operating Expense charts depict the costs of the various functions of the Authority's Operating Expenses for the comparative years ending September 30, 2025, and 2024.

Overall operating expenses increased 6.5% from FY2024 to FY2025, excluding depreciation, following a 22.3% increase from FY2023 to FY2024. The most significant increases occurred within **Water Operations**, where rising wholesale water purchases, unexpected, significant inflationary pressures on key inputs, and sharp increases in non-payroll operating costs, such as chemicals, electricity, and operational repairs, contributed materially to higher expenses. Several critical water system operating costs increased

by more than 100% from the prior fiscal year, reflecting broader market conditions and heightened service demand in the western service area.

**Wastewater Operating Expenses** remained relatively stable year over year, with only modest increases in system repairs, energy usage, and inflationary adjustments. **Administrative Expenses** increased moderately due to cost-of-living adjustments, software and system upgrades, and higher professional service costs associated with compliance, cybersecurity, and replacement of legacy systems.

**Shared Services Expenses**, which include cross-functional support activities, increased slightly due to escalating supply and utility costs. **Depreciation and Amortization**—the largest component of total operating expenses—continued its upward trajectory, reflecting the Authority’s ongoing capital reinvestment program and replacement of older, fully depreciated assets with newer infrastructure, including shorter-lived mechanical components and significant developer-donated assets received. As the Authority proceeds with its accelerated renewal and replacement initiatives, depreciation is expected to continue rising in future years.

### **Cash/Investments and Related Income**

Unrestricted investment balances increased from FY2023 through FY2025 as the Authority maintained disciplined cash management practices despite significant inflationary cost pressures. Bond yields, which had decreased sharply during the COVID-19 period, began recovering in FY2022, peaked during mid-FY2024, and moderated during FY2025 in response to Federal Reserve actions. These changes directly influenced the Authority’s investment earnings, which rose substantially as maturing low-yield securities were reinvested at higher market rates.

Realized investment earnings increased each year and more than tripled since FY2023 due to higher market yields and the implementation of a nightly sweep account, previously discussed. Restricted investments declined to zero in FY2024 following the final debt service payment and retirement of all bond-related reserves. Overall, the investment portfolio continues to prioritize principal preservation, adequate liquidity, and compliance with statutory and board-approved investment policies.

The following table summarizes investment balances as of September 30th and realized earnings over the past five fiscal years.

## Capital Assets

In accordance with the Authority’s capitalization policy, all disbursements of less than \$1,500 are classified as operating expenses. Recorded capital assets include purchased, lease-purchased, and donated assets comprised of land, easements, rights of way, structures and improvements, transmission, collection, distribution mains, accessories, plant, and equipment. Net Book Values increased as older and fully depreciated infrastructure improvements were replaced with newly acquired assets. Furthermore, asset values were restated for donated infrastructure acquired in prior years that were discovered and recorded in FY2025. Accordingly, both newly installed equipment and infrastructure caused significant increases in depreciation expense.

The Authority remains committed to its aggressive renewal and replacement program, spending approximately \$30 million annually on more modern and durable infrastructure. This infrastructure trend will continue throughout the next 10-15 years. The Authority’s long-term capital improvement plan is presented in the Annual Budget posted at [www.sua.com](http://www.sua.com). Also shown in Note 4 to the financial statements are additional details of the Authority’s Capital Assets, including restated balances.

### Long Term Debt, Debt Service, and Debt Management

The Authority completed its final debt service payment in FY2024, retiring all remaining outstanding bonded debt. Prior to retirement, the Authority’s debt obligations followed fixed, predictable amortization schedules established at issuance. The final payment of **\$12.14 million**, including unamortized premiums, eliminated the annual debt service burden—previously averaging approximately \$13 million—and significantly strengthened the Authority’s financial position by freeing up cash for reinvestment in capital infrastructure.

The 2016 crossover refunding, which generated \$29 million in net present value savings and \$41 million in total customer benefit, accelerated the Authority’s ability to extinguish debt. As a result, the Authority now operates on a pay-as-you-go capital financing model, reducing financial risk and supporting strong credit ratings from Fitch (AAA) and Moody’s (Aa1-equivalent system profile). Debt elimination continues to provide long-term financial capacity for major renewal and replacement initiatives planned over the next 10–15 years.

The following chart displays the principal and interest payments along with annual changes over the past three years.

| Fiscal Year (FY) | Principal<br>Balance | Principal Paid | Balance Remaining | Interest Paid |
|------------------|----------------------|----------------|-------------------|---------------|
|                  | Beginning of FY      |                | End of FY         |               |
| 2025             | \$                   | \$             | \$                | \$            |
| 2024             | 11,940,000           | (11,940,000)   |                   | 289,500       |
| 2023             | 23,300,000           | (11,360,000)   | 580,000           | 1,179,500     |

For further details on the changes to the Authority’s outstanding debt, please refer to Note 6 in the Financial Statements.

## **Events, Economic Factors, and Trends**

The Authority continues to operate within a region experiencing moderate but sustained development, incremental system demands, and ongoing infrastructure renewal needs. These conditions shape the Authority's operational priorities, capital planning, and long-term financial strategies. Several key trends and external factors influenced FY2025 results and will continue to guide decision-making in future years.

### **System Growth**

Real estate activity within and near the Authority's service area continues to support incremental system expansion. Proposed development projects represent approximately 6,500 additional Equivalent Residential Connections (ERCs). Nearly half of this projected demand lies in areas distant from existing Authority pipelines and will be served through bulk-service agreements with neighboring utilities. Within the core service area, a conceptual redevelopment of the Town of Lake Park's U.S. Highway 1 corridor would add approximately 2,000 ERCs, requiring renewal and reinforcement of aging water and wastewater infrastructure to support additional flows and pressures.

### **System Renewal and Replacement**

The Authority has advanced several major renewal and replacement initiatives to enhance reliability, reduce service disruptions, and extend asset life cycles. These projects include multi-year rehabilitation of water distribution systems, wastewater collection and pumping facilities, reclaimed water delivery systems, and key pressure-enhancing improvements along major transportation corridors. Additional details on active and planned projects are available on the Authority's website.

### **Authority's Bond Rating and Financial Strength**

The Authority's financial performance continues to be recognized by national credit rating agencies. The 2016 crossover refunding yielded \$41 million in customer savings and enabled early retirement of all outstanding debt by March 2024—15 years ahead of schedule. Fitch affirmed the Authority's **AAA Stable** rating during its latest published review, citing extremely low leverage, strong financial performance, and a stable, affluent service area. Moody's similarly identified an exceptionally strong system profile, robust liquidity (including days cash on hand significantly above sector medians), and conservative financial management. The Authority's strong credit position is supported by its debt-free status, healthy operating margins, stable management, and disciplined capital and rate-setting practices.

### **Operational Trends**

Operational trends continued to influence FY2025 activities, including:

- ***Software Modernization:***

The Authority implemented replacements of several critical software platforms—most notably SCADA system enhancements for wastewater operations and a full replacement of the 22-year-old billing and customer service system.

- ***Administrative Performance:***

Despite widespread market challenges, the Authority successfully negotiated a moderate increase in projected 2025 benefit costs—approximately 6.4% over calendar year 2024. Customer Service maintained exceptionally low uncollectible accounts (0.038% of billed revenue) and continued to meet high service standards. Employee turnover remained minimal, and the Authority maintained an AAA credit rating—higher than the federal government's.

- ***Water Treatment:***

The Authority's drinking water quality continued to be recognized regionally, earning "Best Tasting Drinking Water" in 2022 and 2024, and runner-up in 2025. The Authority's membrane treatment process effectively removes PFAS compounds, resulting in finished water with non-detectable levels.

- ***Water Transmission and Distribution:***

Several multi-year neighborhood infrastructure replacements progressed in FY2025, including in the Juno Isles, Captain's Key, and Pirates Cove communities. Additional projects improved circulation and pressure along U.S. 1 in North Palm Beach and Lake Park.

- ***Wastewater Collection and Transmission:***

Numerous projects were initiated to rehabilitate older infrastructure, expand capacity for redevelopment, and replace aging mechanical and structural components. Improvements included expanded low-pressure sewer service in areas currently served by septic systems and rehabilitation of manholes, pipelines, and lift stations.

- ***Wastewater Treatment:***

Significant capital improvements began at the Wastewater Treatment Plant to modernize mechanical, electrical, biosolids, pumping, and control systems as the facility enters its third decade of service. Replacement of the Return/Waste Activated Sludge pumping system and structural coatings for headworks facilities is underway.

- ***Reclaimed Water:***

The reclaimed water system continued to operate at full capacity and in compliance with regulatory requirements. Deliveries averaged 10.3 million gallons per day—a 17% increase from FY2024 due to extended dry weather conditions.

## **Looking to the Future**

With the retirement of all outstanding debt on March 1, 2024, the Authority entered a new phase focusing on long-term system resiliency, cost stability, and renewal of critical infrastructure. The absence of annual debt service obligations—previously averaging approximately \$13 million—provides greater financial flexibility to support long-range capital initiatives while maintaining affordability for customers.

The Authority's strategic priority over the next decade is the systematic renewal and replacement of aging water and wastewater infrastructure, including neighborhood distribution systems, major transmission mains, pumping facilities, mechanical equipment, and process controls. These improvements are intended to reduce maintenance costs, enhance operational reliability, and mitigate community impacts associated with emergency repairs. Complementary investments in the Authority's treatment plants, fleet, and administrative technologies will support efficient operations and ensure that the Authority continues to meet or exceed regulatory requirements. Details of planned infrastructure expenditure can be found in the Authority's comprehensive budget document at [www.sua.com](http://www.sua.com).

The Authority also remains committed to maintaining high levels of customer service and to the financial discipline necessary to preserve its strong credit ratings. Prudent rate-setting practices, continued investment in staff development, ongoing modernization of information technology systems, and robust long-term capital planning will support these objectives. By maintaining focus on system renewal, financial stability, and operational excellence, the Authority is well-positioned to meet the needs of its customers and community for decades to come.

#### **Contacting the Authority's Financial Management Team**

This financial report is designed to provide the Seacoast Utility Authority's Board, customers, investors, creditors, and employees with a general overview of the Authority's finances and accountability. Direct questions concerning this report to the Authority's Finance Department at 4200 Hood Road, Palm Beach Gardens, Florida, 33410.

**SEACOAST UTILITY AUTHORITY**  
**NOTES TO FINANCIAL STATEMENTS**  
**September 30, 2025 and 2024**

**(1) Summary of Significant Accounting Policies:**

**(a) Reporting Entity** - Seacoast Utility Authority (the “Authority”) was created as a separate legal entity pursuant to an Interlocal Agreement entered into by and among the City of Palm Beach Gardens, Florida; Palm Beach County, Florida; the Village of North Palm Beach, Florida; the Town of Lake Park, Florida; and the Town of Juno Beach, Florida, under and in accordance with the provision of Chapter 163, *Florida Statutes*. In compliance with the requirements of such chapter, the Interlocal Agreement was filed with the Clerk of the Circuit Court of the Fifteenth Judicial Circuit of Florida in and for Palm Beach County, Florida on August 24, 1988.

On December 20, 1988, the Authority acquired, by eminent domain, substantially all the utility assets of Seacoast Utilities, a water and wastewater utility formerly owned and operated as a separate division by the John D. and Catherine T. MacArthur Foundation. The Authority is located within certain unincorporated areas of Palm Beach County and within the incorporated boundaries of the other members of the participating public entities. The Authority now owns, operates, and maintains the utility system.

The governance of the Authority resides in the Authority Board, which is comprised of five (5) members, one (1) member appointed by each of the participating public entities. The members of the Authority Board serve for a term of four (4) years or until such time as an Authority Board member’s replacement has been appointed. Voting by the members of the Authority Board is by weighted percentage as specified in the Interlocal Agreement. All entities for which the Authority is financially accountable are included in the financial reporting entity.

**(b) Measurement Focus, Basis of Accounting, and Financial Statement Presentation** - All activities of the Authority are accounted for within a single proprietary (enterprise) fund. Proprietary funds are used to account for operations that are financed and operated in a manner similar to private business enterprises, where the intent of the governing body is that the costs (including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges. The Authority’s water and sewer utility systems are proprietary fund operations.

A proprietary fund distinguishes operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with principal ongoing operations. The Authority’s principal operating revenues are charges for water and sewer services. The Authority also recognizes as operating revenues certain administrative fees associated with the utility system. Operating expenses include the costs to maintain and repair the water and sewer treatment plants, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

The accounting and financial reporting treatment applied by the Authority is determined by “measurement focus.” Measurement focus is a term used to describe which transactions are recorded within the financial statements. The transactions of the Authority are accounted for on a flow of economic resources measurement focus. With this measurement focus, financial activity is reported in essentially the same manner as in commercial accounting where net income and capital maintenance are measured. All assets and all liabilities (whether current or non-current) are included in the financial statements. Net position (i.e., total assets and deferred outflows net of total liabilities) is segregated into three categories on the Statement of Net Position.

**SEACOAST UTILITY AUTHORITY**  
**NOTES TO FINANCIAL STATEMENTS**  
**September 30, 2025 and 2024**

**(1) Summary of Significant Accounting Policies:** (Continued)

**(b) Measurement Focus, Basis of Accounting, and Financial Statement Presentation** (Continued)

Basis of accounting refers to the timing when transactions are recognized in the accounts and reported in the financial statements. The transactions of the Authority are accounted for using the accrual basis of accounting in accordance with the Governmental Accounting Standards Board (GASB). Under the accrual basis of accounting, revenues are recognized when they are earned, and expenses are recognized when they are incurred.

Water and sewer customers are billed at varying intervals during the period. Accounts receivable represent various revenues earned but not yet collected. Management has established an allowance for doubtful accounts and has estimated the potential uncollectible amounts. Included in accounts receivable are unbilled amounts which represent the estimated portion of water and sewer services through the end of the fiscal year.

Unearned revenues arise when resources are received by the Authority before it has legal claim to them. In subsequent periods, when the Authority has legal claim to the resources, the liability for unearned revenues is removed from the statement of net position and revenue is recognized. The Authority recognizes unearned revenue for funds received for the purpose of reserving capacity.

**(c) Budgetary Accounting** - The Annual Operating and Capital Budget is prepared and controlled on a departmental level. The Executive Director is authorized to transfer budgeted amounts within the departments. Budget amendments which require a change in total appropriations of any department are approved by the Authority's Board. The budgets are prepared on the accrual basis of accounting, which is consistent with the basis utilized for proprietary funds.

**(d) Deferred Outflows/Inflows of Resources** - In addition to assets, the statement of financial position will, if required, report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net assets that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The Authority has OPEB related items that qualify for reporting in this category.

In addition to liabilities, the statement of financial position will, if required, report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net assets that applies to future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The Authority has OPEB related items and lease related items that qualify for reporting in this category.

**(e) Estimates** - The financial statements and related disclosures are prepared in conformity with accounting principles generally accepted in the United States. Management is required to make estimates and assumptions that affect the reported amounts of assets, liabilities, and deferred outflows/inflows of resources, the disclosure of contingent assets and liabilities at the date of the financial statements, and revenues and expenses during the period reported. These estimates include assessing the collectability of accounts receivable, the use and recoverability of inventories, and useful lives and impairment of tangible and intangible assets, among others. Estimates and assumptions are reviewed periodically and the effects of revisions are reflected in the financial statements in the period they are determined to be necessary. Actual results could differ from those estimates.

**NOTES TO FINANCIAL STATEMENTS**  
**September 30, 2025 and 2024**

**(1) Summary of Significant Accounting Policies:** (Continued)

**(f) Reclassifications** - Certain accounts in the prior year information have been reclassified for comparative purposes to conform with the presentation in the current-year financial statements.

**(g) Cash, Cash Equivalents, and Investments** - Cash and cash equivalents consist of cash on hand and deposits in banks and money market accounts. Investments with a maturity of three months or less when purchased are considered to be cash equivalents. Money market accounts are stated at cost, which is fair value. Investments are stated at fair value except for non-negotiable certificates of deposit which are stated at cost, which is fair value. The Authority categorized its investments according to the fair value hierarchy established by GASB Statement No. 72. The hierarchy is based on observable and unobservable inputs used in establishing the fair value of a financial asset or liability. In accordance with state legislation, the Authority has a written policy that places investment priorities on the safety of principal, liquidity of funds, and investment income (in that order of importance). The policy authorizes investments in obligations of the U.S. Government, its agencies and instrumentalities, repurchase agreements, interest bearing time deposit or savings accounts, certificates of deposits, the treasurers investment pool (The Local Government Surplus Funds Trust Fund), corporate notes or bonds, municipal bonds (taxable and tax-exempt), and certain highly rated commercial paper.

**(h) Utility Plant in Service and Depreciation** - Property acquired through purchase or internal construction is stated at cost. Property contributed in aid of construction is recorded at acquisition value on the date received. In addition to contributed facilities, plant capacity and connection charges are collected from developers and customers who connect to existing water and sewer lines. These funds are used to construct additional facilities or are applied towards past debt service costs.

Expenditures of \$1,500 or more for system additions and improvements are capitalized. Professional services relative to construction projects are capitalized. The Authority's policy is to record the fees as construction in progress on a progress-billing basis. Maintenance and repairs, which do not significantly extend the value or life of capital assets, are expensed as incurred.

**SEACOAST UTILITY AUTHORITY**  
**NOTES TO FINANCIAL STATEMENTS**  
**September 30, 2025 and 2024**

**(1) Summary of Significant Accounting Policies:** (Continued)

**(i) Utility Plant in Service and Depreciation** (Continued)

The Authority utilizes the composite straight-line depreciation method with normal retirements charged to accumulated depreciation, and a gain or loss recognized on such retirements. Estimated useful lives of capital assets are as follows:

| Asset                        | Years    |
|------------------------------|----------|
| Buildings                    | 10 to 33 |
| Utility Plants and Pipelines | 7 to 50  |
| Equipment                    | 3 to 15  |

Intangible assets consists of easements and the right to use additional potable water capacity and wastewater capacity in Palm Beach County's potable water system and wastewater system. These assets have an indefinite life per the underlying agreements or nature.

**(j) Inventories** - Inventories consist of general supplies and are valued at normal average cost.

**(k) Accrued Leave** - It is the Authority's policy to permit all employees to accumulate limited amounts of paid time-off (PTO). Any unused PTO is payable upon termination, and thus is accrued as a liability.

**(l) Unamortized Premiums** - Premiums related to long-term debt are amortized over the life of the debt using the effective interest method. Long-term debt is shown net of unamortized premiums.

**(m) Capital Contributions** - The Authority receives contributions of cash, easements, and water or sewer lines from customers and developers who connect to the system. Contributions are recognized in the Statement of Revenues, Expenses, and Changes in Net Position when earned.

**(n) Net Position** - Net position is categorized as net investment in capital assets, restricted and unrestricted.

Net investment in capital assets is intended to reflect the portion of net position which is associated with nonliquid, capital assets net of accumulated depreciation and net of outstanding capital asset related debt. The net related debt is the debt less the outstanding liquid assets and any associated unamortized discounts, premiums, or deferred refunding losses.

Restricted assets are liquid assets which have third-party (statutory or bond resolution covenant) limitations on their use. When both restricted and unrestricted, resources are available, restricted resources will be used first for incurred expenses, and then unrestricted as needed.

Unrestricted assets consist of all other net positions not included in the previous categories.

**SEACOAST UTILITY AUTHORITY**  
**NOTES TO FINANCIAL STATEMENTS**  
**September 30, 2025 and 2024**

**(1) Summary of Significant Accounting Policies:** (Continued)

**(o) Operating Revenues and Expenses** - Operating revenues and expenses for enterprise funds are those that result from providing services and producing and delivering goods and/or services. It also includes all revenue and expenses not related to capital and related financing, noncapital financing, or investing activities.

**(p) Non-Operating Revenues and Expenses** - Non-operating revenues and expenses represent revenue and expense items that are not incurred from the normal user activity of the Authority. This classification includes revenue received from grants and contributions, interest earned on bank accounts and investments, interest paid on debt service, lease proceeds, bond amortization, and the gain or loss on the sale or disposal of Authority property.

**(q) Implemented Accounting Pronouncements** - The Authority has implemented the following new Statements issued by the Governmental Accounting Standards for the fiscal year ending September 30, 2025:

1. GASB Statement No. 102, *Certain Risk Disclosures*. This statement enhances the consistency, comparability, and reliability related to the information required to be disclosed and continues to meet the objective of focusing the disclosures on those circumstances that make the government vulnerable to a heightened possibility of loss or harm. This statement is effective for the Authority's fiscal year ending September 30, 2025.
2. GASB Statement No. 103, *Financial Reporting Model Improvements*. This Statement improves key components of the financial reporting model (Management's Discussion & Analysis; Unusual or Infrequent Items; Presentation of the Proprietary Fund Statement of Revenues, Expenses, and Changes in Net Position) to enhance its effectiveness in providing information that is essential for decision making and assessing a government's accountability.
3. GASB Statement No. 104, *Disclosure of Certain Capital Assets*. This statement improves financial reporting by providing users of financial statements with essential information about certain types of capital assets in order to make informed decisions and assess accountability. Additionally, the disclosure requirements will improve consistency and comparability between governments.

**(r) Recent Accounting Pronouncements** - The Governmental Accounting Standards Board has issued GASB Statement No. 105, *Subsequent Events*, which will be effective in future years. Management has not completed its analysis of the effects, if any, of these GASB statements on the financial statements of the Authority.

**SEACOAST UTILITY AUTHORITY**  
**NOTES TO FINANCIAL STATEMENTS**  
**September 30, 2025 and 2024**

**(2) Deposits and Investments:**

**(a) Deposits** - As of September 30, 2025 and 2024, the carrying amount of the Authority's deposits was \$12,290,368 and \$14,185,697, respectively, and the related bank balance totaled \$11,954,408 and \$13,986,379, respectively. The Authority also had cash on hand of \$1,750 and \$1,750 in FY2025 and FY2024, resulting in a total carrying amount of \$12,292,118, at September 30, 2025, and \$14,187,447 at September 30, 2024.

As of September 30, 2025 and 2024, the Authority's deposits are insured by the Federal Depositary Insurance Corporation. Under Florida Statutes Chapter 280, Florida Security for Public Deposits Act, the State Treasurer requires all Florida qualified public depositories to deposit with the Treasurer or a banking institution eligible collateral. In the event of failure of a qualified public depository, the remaining public depositories would be responsible for covering any resulting losses. The Authority's deposits at year-end, except for the demand deposits in trust accounts, are considered insured for custodial credit risk purposes.

**(b) Investments** - Investment of funds is governed by a written policy. The policy limits investment of funds to the following:

1. United States Securities (U.S. Treasury Notes, Bonds, or Bills) or any other instrument unconditionally guaranteed by the U.S. Government;
2. Government Sponsored Agencies and Instrumentalities;
3. State and local taxable and/or tax-exempt debt with a credit rating of at least AA, at the time of purchase, by at least one nationally recognized rating agency;
4. Corporate notes issued by U.S. Corporations that have a long-term debt rating, at the time of purchase, of at least AA by at least one nationally recognized rating agency;
5. Prime commercial paper of any United States company that is rated, at the time of purchase, "P-1" or "A-1", by Moody's and Standard & Poor's, respectively;
6. Negotiable certificates of deposits ("Brokered CD's") up to the amount guaranteed by the U.S. Government under FDIC limits;
7. Supra-national bonds issued by one of the three Supra-nationals – World Bank (IBRD), International Finance Corporation (IFC), or the InterAmerican Development Bank (IADB), which were established by international treaties, incorporated into U.S. federal law by congressional acts and headquartered in Washington, D.C.;

**SEACOAST UTILITY AUTHORITY**  
**NOTES TO FINANCIAL STATEMENTS**  
**September 30, 2025 and 2024**

**(2) Deposits and Investments:** (Continued)

**(b) Investments** (Continued)

8. Non-negotiable certificates of deposit, money market funds, or interest-bearing time deposits or savings accounts in banks and thrifts placed with commercial banks doing business and situated in this State and approved under Florida Statute 280, by the State Treasurer for public deposits;
9. Secured repurchase agreements can be entered into only with qualified Florida public depositories or qualified principal dealers in U.S. Government securities. Repurchase agreements must be fully collateralized by direct obligations of the U.S. Treasury or of United States sponsored agencies/instrumentalities. An executed master purchase agreement is required;
10. Participation in any intergovernmental investment pool authorized pursuant to the Florida Interlocal Cooperation Act, as provided in Section 163.01, Florida Statutes and the Florida Municipal Investment Trust pursuant to Section 218.415, Florida Statutes;
11. Security of, or other interests in, any open-end management-type investment company or investment trust registered under the Investment Company Act of 1940, 15 U.S.C. 55.80a-1, et. Seq., as amended from time to time, provided the portfolio of such investment company or trust is limited to money market instruments consisting of United States Government obligations and to repurchase agreements fully collateralized by such United States Government obligations and provided such investment company or trust takes delivery of such collateral either directly or through an authorized custodian.

The Authority categorizes its investments according to the fair value hierarchy established by this statement. The hierarchy is based on valuation inputs used to measure the fair value of the asset as follows: Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs to include quoted prices for similar assets in active and non-active markets; Level 3 inputs are significant unobservable inputs. U.S. Agency Debentures, Corporate Bonds, and U.S. Treasury Obligations are recorded at fair value based on institutional bond quotes with various market and industry inputs on a daily basis. Negotiable Certificates of Deposits are recorded at fair value based on market prices on a monthly basis. Non-negotiable Certificates of Deposit are recorded at fair value using a cost-based measure and have not been classified in the fair value hierarchy. Money Market Accounts are recorded at cost and have not been classified in the fair value hierarchy.

**(c) Credit Risk** - Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The Authority's investment policies limit its investments to high quality investments to control credit risk as discussed in Note 2. The table below outlines the Authority's credit ratings for investments with certain investments not specifically rated by both S&P and Moody's. The negotiable certificates of deposit are covered under the FDIC.

NR - Not Rated

**(d) Interest Rate Risk** - Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The Authority has a formal investment policy that limits investment maturities, up to six years depending on the type of investment, as a means of managing exposure to fair value losses arising from increasing interest rates. Furthermore, in order to meet ongoing obligations, a minimum of 5% of idle cash is held in readily available funds such as checking, money market funds, or overnight repurchase agreements.

**SEACOAST UTILITY AUTHORITY**  
**NOTES TO FINANCIAL STATEMENTS**  
**September 30, 2025 and 2024**

**(2) Deposits and Investments:** (Continued)

**(e) Custodial Credit Risk** - Custodial credit risk is the risk that, in the event of the failure of the counterparty, the Authority will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. In order to manage the custodial credit risk, the Authority's investment policy specifies certain requirements to pre-qualify financial institutions and brokers/dealers and does an annual review of the institutions used. The Authority's investments are held by a third-party custodian, not in the name of the Authority. Investments are held in book entry form at the Federal Reserve by Depository Trust Company (DTC) via the custodian. The custodian further segregates the Authority's investments in their trust accounting system.

**(3) Accounts Receivable:**

Customer accounts receivable consist of the following at September 30, 2025 and 2024:

|                                      | <b>2025</b>         | <b>2024</b>         |

| Total              | <u>\$ 10,194,654</u> |                                    |            |

**(6) Long-Term Debt:**

**(a) Bonds Payable** – On December 5, 2016, the Authority issued \$42,855,000 of Water and Sewer Utility System Revenue Refunding Bonds, Series 2016B. Repayments of principal (annual) and interest (semi-annual at 5%) were made through March 1, 2024, when the bonds matured.

**(b) Right to Use Lease** – In April 2024, the Authority entered into a right to use lease for certain biofilter and odor control scrubber equipment. Under the terms of the agreement, the lease is paid monthly with a term of 59 months. Per GASB 87, the Authority recorded a lease asset and a lease liability at the commencement of the lease term measured at the present value of payments per the agreement excluding any nonlease components. The discount rate was 4% using the Authority's estimated incremental borrowing rate. The lease asset is amortized using the straight-line method over the term of the lease.

In July 2018 and June 2020, the Authority entered into right to use lease agreements for certain biofilter and odor control scrubber equipment. Under the terms of the agreements, the leases were paid monthly with term of 59 and 47 months, respectively. Per GASB 87, the Authority recorded lease assets and lease liabilities at the commencement of the lease term measured at the present value of payments per the agreement excluding any nonlease components. The discount rate were 3.75% and 4.0%, respectively, using the Authority's estimated incremental borrowing rate. The lease assets are amortized using the straight-line method over the term of the lease. In fiscal year 2024, the lease agreements were terminated.

**SEACOAST UTILITY AUTHORITY**  
**NOTES TO FINANCIAL STATEMENTS**  
**September 30, 2025 and 2024**

**(6) Long-Term Debt:** (Continued)

(c) **SBITA** – The Authority entered into a right to use SBITA for its budget software. Under the terms of the agreements, the SBITA is paid monthly with a term of 56 months. Per GASB 96, the Authority recorded a SBITA liability at the commencement of the lease term measured at the present value of payments per the agreement excluding any nonlease components. A SBITA asset was also recorded for the present value of payments per the agreement, plus implementation costs. The discount rate was 5% using the Authority’s estimated incremental borrowing rate. The SBITA asset is amortized using the straight-line method over the term of the lease. The Authority has also entered into an additional right to use SBITA for a customer service platform. Under the terms of that agreement, the SBITA is paid monthly with a term of 55 months. Per GASB 96, the Authority recorded a SBITA liability at the commencement of the lease term measured at the present value of payments per the agreement excluding any nonlease components. A SBITA asset was also recorded for the present value of payments per the agreement, plus implementation costs. The discount rate was 5% using the Authority’s estimated incremental borrowing rate.

(d) **Long-Term Debt** - Changes in long-term debt for the year ended September 30, 2025, were as follows:

|                      | Beginning<br>Balance | Additions        | Remeasurements     | Reductions          | Ending<br>Balance   | Due Within<br>One Year |

**SEACOAST UTILITY AUTHORITY**  
**NOTES TO FINANCIAL STATEMENTS**  
**September 30, 2025 and 2024**

**(6) Long-Term Debt:** (Continued)

**(f) Events of Default** - In the event of a default, of any of the Authority's outstanding bonds, the bondholders may, and, upon the written request of the holders of not less than 25 percent in aggregate principal amount of the outstanding obligations, shall, declare the principal of and premium, if any, on all the outstanding obligations (if not then due and payable), and the interest accrued thereon, to be due and payable immediately.

**(7) Other Post-Employment Benefits (OPEB):**

**(a) General Information about the OPEB Plan** - Retirees of the Authority pay an amount equal to the actual premium for health insurance charged by the carrier. The premium charged includes an implied rate subsidy, as the amount charged for all participants (active employee or retiree) is the same, regardless of age. Under GASB 75, an implied rate subsidy is considered other post-employment benefits (OPEB).

The following describes the Authority's OPEB Provisions:

Plan Description - The Authority provides a single employer defined benefit health care plan to all of its employees and the plan is administered by the Authority. The plan has no assets and does not issue a separate financial report.

Benefits Provided - The plan allows its employees and their beneficiaries, at their own cost, to obtain health, dental and other insurance benefits upon retirement. The benefits of the plan are in accordance with Florida Statutes, which are the legal authority for the plan.

**SEACOAST UTILITY AUTHORITY**  
**NOTES TO FINANCIAL STATEMENTS**  
**September 30, 2025 and 2024**

**(7) Other Post-Employment Benefits (OPEB):** (Continued)

**(a) General Information about the OPEB Plan** (Continued)

Employees Covered by Benefit Terms - For the most recent valuation with a valuation date of October 1, 2024, the following employees were covered by benefit terms:

|                                                 |            |
|-------------------------------------------------|------------|
| Participants                                    |            |
| Active Employees                                | 125        |
| Inactive Employees Currently Receiving Benefits | 1          |
| Total                                           | <u>126</u> |

Contribution Requirements - The Authority does not make direct contributions to the plan on behalf of retirees. Retirees and their beneficiaries pay the same group health rates as active employees. However, the Authority's actuaries, in their actuarial valuation, calculate an offset to the cost of these benefits as an employer contribution, based upon an implicit rate subsidy. This offset equals the total annual age-adjusted costs paid by the Authority, or its active employees, for coverage of the retirees and their dependents net of the retiree's own payments for the year.

**(b) Total OPEB Liability** - The Authority's Total OPEB Liability was \$1,189,505 as of September 30, 2025, and was determined from the valuation with a valuation date of October 1, 2024, and was determined using a roll-forward calculation based on the valuation with valuation date of October 1, 2022. The Authority's Total OPEB Liability was \$971,916 as of September 30, 2024, and was determined from the valuation with a valuation date of October 1, 2022, and was determined using a roll-forward calculation based on the valuation with valuation date of October 1, 2022.

Actuarial Assumptions and Other Inputs - The total OPEB liability in the October 1, 2024, actuarial valuation was determined using the following actuarial assumptions and other inputs. These assumptions apply to the September 30, 2025, fiscal year:

Health Care Trend Rates:

|                                          |                  |
|------------------------------------------|------------------|
| Initial Health Care Cost Trend Rate:     |                  |

**(7) Other Post-Employment Benefits (OPEB):** (Continued)

**(b) Total OPEB Liability** (Continued)

The total OPEB liability in the October 1, 2022, actuarial valuation was determined using the following actuarial assumptions and other inputs. These assumptions apply to the September 30, 2024, fiscal year:

Health Care Trend Rates:

|                                          |                  |
|------------------------------------------|------------------|
| Initial Health Care Cost Trend Rate:     |                  |
| HMO Plan                                 | 8.50%            |
| PPO Plan                                 | 8.50%            |
| Ultimate Health Care Cost Trend Rate     | 4.50%            |
| Fiscal Year the Ultimate Rate is Reached | Fiscal Year 2038 |

Additional Information

|                                                                                  |                  |
|----------------------------------------------------------------------------------|------------------|
| Actuarial Cost Method                                                            | Entry Age Normal |
| Inflation Rate                                                                   | 3.00%            |
| Salary Rate Increase                                                             | 4.00%            |
| Funded Ratio (Fiduciary Net Position as a percentage of<br>Total OPEB Liability) | 0.00%            |
| Covered-Employee Payroll                                                         | \$ 10,692,145    |
| Total OPEB Liability as a Percentage of Covered Payroll                          | 9.09%            |

Discount Rate - The Authority does not have a dedicated Trust to pay retiree healthcare benefits. Per GASB 75, the discount rate is a yield or index rate for 20-year, tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher (or equivalent quality on another rating scale). As of September 30, 2025, the calculation used a rate of 4.50%, which was the September 30, 2025, S&P Municipal Bond 20 Year High-Grade Rate Index. As of September 30, 2024, the calculation used a rate of 4.06%, which was the September 30, 2024, S&P Municipal Bond 20 Year High-Grade Rate Index.

Mortality Assumptions - Mortality rates were based on the PUBG H-2010 Mortality Table - General.

Experience Study - No experience studies specific to the Authority's group was performed. Reliance was placed on assumptions and experience studies thereof from the Florida Retirement System Pension Plan Actuarial Valuation as of July 1, 2024.

**(c) Changes in the Total OPEB Liability** - Changes in the total OPEB liability were as follows:

|                                                    | 2025         | 2024       |
|----------------------------------------------------|--------------|------------|
| Total OPEB liability, beginning of year            | \$ 971,916   | \$ 879,087 |
| Changes for the year:                              |              |            |
| Service cost                                       | 64,144       | 54,951     |
| Interest on the total OPEB liability               | 38,625       | 41,673     |
| Differences between expected and actual experience | (147,218)    |            |
| Changes in assumptions and other inputs            | 303,157      | 42,952     |
| Benefit payments                                   | (41,119)     | (46,747)   |
| Net changes                                        | 217,589      | 92,829     |
| Total OPEB liability, end of year                  | \$ 1,189,505 | \$ 971,916 |

Changes of Assumptions - For the September 30, 2025, valuation, all assumptions, methods, and results are based on the fiscal year 2025 GASB 75 actuarial report dated November 18, 2025. Changes to the assumptions since the last actuarial valuation include the discount rate was increased from 4.06% to 4.50%; starting per capita costs were updated using most recent premiums; the health care trend rates were reset based on recent experience; retirement, termination and disability rates were changed to those found in the Florida Retirement System Pension Plan Actuarial Valuation as of July 1, 2024.

**(d) OPEB Expense, Deferred Outflows of Resources, and Deferred Inflows of Resources Related to OPEB** - For the year ended September 30, 2025, the Authority recognized OPEB expense of \$120,040. At September 30, 2025, the Authority reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

| <u>Description</u>                                | <u>Deferred Outflows<br/>of Resources</u> | <u>Deferred Inflows<br/>of Resources</u> |
|---------------------------------------------------|-------------------------------------------|------------------------------------------|
| Difference Between Expected and Actual Experience | \$ 130,969                                | \$ 176,701                               |
| Changes of Assumptions and Other Inputs           | 415,936                                   | 154,810                                  |
| Total                                             | <u>\$ 546,905</u>                         | <u>\$ 331,511</u>                        |

For the year ended September 30, 2024, the Authority recognized OPEB expense of \$88,909. At September 30, 2024, the Authority reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

| <u>Description</u>                                | <u>Deferred Outflows<br/>of Resources</u> | <u>Deferred Inflows<br/>of Resources</u> |
|---------------------------------------------------|-------------------------------------------|------------------------------------------|
| Difference Between Expected and Actual Experience | \$ 155,110                                | \$ 79,316                                |
| Changes of Assumptions and Other Inputs           | 161,506                                   | 160,574                                  |
| Total                                             | <u>\$ 316,616</u>                         | <u>\$ 239,890</u>                        |

Amounts reported as deferred outflows of resources and deferred inflows of resources as of September 30, 2025, will be recognized in OPEB expense as follows:

| <u>Fiscal Year Ending</u> | <u>Amount</u>     |
|---------------------------|-------------------|
| <u>September 30:</u>      |                   |
| 2026                      | \$ 17,271         |
| 2027                      | 31,995            |
| 2028                      | 47,270            |
| 2029                      | 41,540            |
| 2030                      | 49,071            |
| Thereafter                | 28,247            |
|                           | <u>\$ 215,394</u> |

**(8) Related Party Transaction:**

In June 2004, the Authority accepted an agreement to operate the First Park South Florida Association, Inc. (FKA Palm Beach Park of Commerce) water and sewer treatment facility. The original operations agreement was with an entity owned by the Authority's Executive Director. The assignment and assumption of rights and responsibilities associated with operating the facility resulted in a \$19,069 net loss and \$9,573 net gain for the fiscal years ended September 30, 2025 and 2024, respectively.

**SEACOAST UTILITY AUTHORITY**  
**NOTES TO FINANCIAL STATEMENTS**  
**September 30, 2025 and 2024**

**(9) Defined Contribution Plan:**

The Authority sponsors and administers a defined contribution (money purchase) pension plan, the Seacoast Utility Authority Money Purchase Plan (the “Plan”). At the Plan’s inception date of January 1, 1995, all the Authority’s existing employees were fully vested in the Plan. Currently, Plan participants may enter the Plan upon hiring, but are subject to the following vesting schedule:

| <u>Years of Vesting Service</u> | <u>Vested Percentage</u> |
|---------------------------------|--------------------------|
| 1                               | 20%                      |
| 2                               | 40%                      |
| 3                               | 60%                      |
| 4                               | 80%                      |
| 5                               | 100%                     |

Plan revisions and contribution requirements are established and may be amended by the Authority Board. The Plan does not allow employee contributions. Effective April 1, 2010, the Authority began making matching contributions on behalf of the plan participants in an amount equal to 100% of the salary deferral made to the Seacoast Utility Authority Deferred Compensation Plan, up to the first 2% of Plan compensation. Employer contributions equal a maximum of 10% of the participants covered employee’s salary and totaled \$1,246,548 and \$1,182,326 for the fiscal years ended September 30, 2025 and 2024, respectively.

**(10) Leases:**

**Lessor** - In September 2007, the Authority entered into an agreement with T-Mobile South LLC, which allowed T-Mobile South LLC to use the Authority property to place and operate communication equipment. Under the terms of the agreement, the lease is paid annually with a term of 20 years. The discount rate was 4% using the implicit rate of the lease. In September 2021, the Authority entered into an agreement with Cellco Partnership d/b/a Verizon Wireless, which allowed Verizon Wireless to use the Authority property to place and operate communication equipment. Under the terms of the agreement, the lease is paid annually with a term of 25 years. The discount rate was 2% using the implicit rate of the lease. Annual lease service requirements to term are as follows:

|                           | <u>Principal</u>    | <u>Interest</u>   | <u>Total</u>        |
|---------------------------|---------------------|-------------------|---------------------|
| Year Ending September 30: |                     |                   |                     |
| 2026                      | \$ 134,123          | \$ 39,845         | \$ 173,968          |
| 2027                      | 143,860             | 35,410            | 179,270             |
| 2028                      | 55,517              | 30,634            | 86,151              |
| 2029                      | 58,361              | 29,513            | 87,874              |
| 2030                      | 61,297              | 28,335            | 89,632              |
| 2031 - 2035               | 353,911             | 121,866           | 475,777             |

| 2041 - 2045               | 546,006             | 33,962            | 579,968             |
| Total lease receivable    | <u>\$ 1,795,693</u> | <u>\$ 402,243</u> | <u>\$ 2,197,936</u> |

**SEACOAST UTILITY AUTHORITY**  
**NOTES TO FINANCIAL STATEMENTS**  
**September 30, 2025 and 2024**

**(11) Commitments and Contingencies:**

The Authority had outstanding purchase orders related to capital projects totaling approximately \$39 million and \$29 million for the fiscal years ended September 30, 2025 and 2024, respectively.

**(12) Risk Management:**

The Authority is exposed to various risks of loss related to torts, theft of, damage to, and destruction of assets, errors and omissions, and natural disasters for which the Authority carries commercial insurance to cover losses or claims. During the past three years, there have been no settlements that exceeded the insurance coverage.

Florida Statutes limit the Authority's maximum loss for most liability claims to \$200,000 per person and \$300,000 per occurrence under the Doctrine of Sovereign Immunity. However, under certain circumstances, a plaintiff can seek to recover damages in excess of statutory limits by introducing a claims bill to the Florida Legislature. The limits addressed in the Florida Statutes do not apply to claims filed in federal courts.

**(13) Correction of an Error in Previously Issued Financial Statements:**

During fiscal year 2025, Authority determined that Easements and Utility Plant and Pipeline assets related to new development that were contributed in prior years were not fully reported. Therefore, capital assets, net of depreciation and amortization, were understated. In addition, revenue from contributions and depreciation and amortization expense were understated. The effect of correcting that error is shown in the table below:

|                                                | <b><u>Net Position</u></b>   |
|------------------------------------------------|------------------------------|
| September 30, 2023, as previously reported     | \$ 379,112,410               |
| Omission correction                            | <u>21,675,273</u>            |
| September 30, 2023, restated                   | \$ 400,787,683               |
| September 30, 2024:                            |                              |
| Change in net position, as previously reported | 27,376,601                   |
| Omission corrections:                          |                              |
| Developer contributions                        | 12,873,739                   |
| Depreciation & amortization                    | (767,717)                    |
| Other expense                                  | <u>(2,158)</u>               |
| September 30, 2024, restated                   | <u><u>\$ 440,268,148</u></u> |

**(14) Subsequent Events:**

The Authority has evaluated subsequent events through April 16, 2026, the date the audit reports were issued.

In March 2026, the Authority received approximately \$14 million from a partial settlement related to PFAS class action litigation involving 3M and Dupont. Under the terms of the settlement, the Authority expects to receive additional proceeds of approximately \$8 million between the 2<sup>nd</sup> Quarter 2026 and the 2<sup>nd</sup> Quarter 2033. The Authority is also a participant in other PFAS-related litigation involving Tyco and BASF; however, the timing and amounts of any potential recoveries from those matters are not currently determinable.

**Notes to the Schedule:**

This schedule is intended to present data for 10 years. Additional years will be presented as they become available.

There are no assets accumulated in a trust that meets the criteria of GASB codification P22.101 or P52.101 to pay related benefits for the OPEB plan.

Changes of assumptions - For the October 1, 2024, valuation, all assumptions, methods, and results are based on the actuarial report dated November 18, 2025. Changes to the assumptions since the last actuarial valuation include the discount rate was decreased from 4.06% to 4.50% in 2024 and was increased from 4.87% to 4.06% in 2024; starting per capita costs were updated using most recent premiums; the health care trend rates were reset based on recent experience; retirement, termination and disability rates were changed to those found in the most recent FRS pension plan valuation report.

## STATISTICAL SECTION

This part of the Seacoast Utility Authority's annual comprehensive financial report presents detailed information as a context for understanding the information presented in the financial statements, note disclosures, and required supplementary information reports.

### Contents

### Page

#### Financial Trends

*These schedules contain trend information to help the reader understand how the Authority's financial performance and well-being have changed over time.*

- Schedule of Net Position by Component .....50
- Schedule of Changes in Net Position.....51

#### Revenue Capacity

*These schedules present information to help the reader understand the revenue base, rates and principal payers.*

- Schedule of Revenues by Source.....52
- Total Water Units by Category .....53
- Total Sewer Units by Category.....54
- Water Meter Data.....55
- Sewer Accounts Data.....56
- Potable Water Sold by Customer Type.....57
- Schedule of Water and Sewer Rates .....58 and 59
- Largest Customers .....60

#### Demographic & Statistical Information

*This schedule presents information to help the reader understand the demographics of the customers the Authority serves.*

- Schedule of Area Demographics .....61 and 62

#### Debt Capacity

*These schedules present information to help the reader assess the affordability of the Authority's current levels of outstanding debt, as well as the Authority's ability to issue additional debt in the future.*

- Ratio of Outstanding Debt .....63
- Schedule of Pledged Revenue Coverage .....64

#### Operating Information

*These schedules contain service and infrastructure data to help the reader understand how the information in the Authority's financial report relates to the services the Authority provides and the activities it performs.*

- Full-Time Employees by Function .....65
- Operation Indicators by Function .....66
- Capital and Infrastructure Statistics by Function.....67

Sources: Unless otherwise noted, the information in these schedules is derived from the annual comprehensive financial reports for the relevant year or from data collected from our billing history reports.

Calculated Total Direct Rate

per Thousand Gallons    \$      8.93    \$      8.92    \$      9.40    \$      9.80    \$     10.34    \$     10.43    \$     11.09    \$     11.40    \$     12.06    \$     11.87

The Authority has a complex rate structure. Charges are based on a combination of factors: customer type, meter size, number of units, and level of consumption. Excluding wastewater only customers, both potable water and wastewater are calculated based upon water sold. Therefore, the calculated total direct rate per thousand gallons is the total charges for services divided by water sold in thousands of gallons.

- (1) Net revenue available for debt service before guaranteed revenue, connection charges and 25% of non-construction interest income.  
(2) Until 3/1/2020 the Bond Trust Indenture required 1.05 times. From 3/1/2020 through 9/30/2023, the Bond Bond Resolution requires 1.0 times.  
(3) Net revenue available for debt service including guaranteed revenue, connection charges and 25% of non-construction interest income.  
(4) Until 3/1/2020 the Bond Trust Indenture required 1.20 times. From 3/1/2020 through 9/30/2023 the Bond Bond Resolution requires 1.10 times.  
(5) Debt service requirements are calculated on a cash basis and interest expense is before capitalization.  
(6) The Crossover refunding debt payments are not included in the presented FY2019/2020 principal paid.  
(7) The Authority no longer has any outstanding debt.

## Independent Auditor's Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

**Board of Directors  
Seacoast Utility Authority  
Palm Beach Gardens, Florida**

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the Seacoast Utility Authority (the "Authority"), as of and for the years ended September 30, 2025 and 2024, and the related notes to the financial statements, which collectively comprise the Authority's basic financial statements, and have issued our report thereon dated April 16, 2026.

### **Report on Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the Authority's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Authority's internal control. Accordingly, we do not express an opinion on the effectiveness of the Authority's internal control.

*A deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements, on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. We identified a certain deficiency in internal control, described in the accompanying schedule of findings and responses as item 2025-001 that we consider to be a material weaknesses.

**Report on Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the Authority's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

**Authority's Response to Finding**

*Government Auditing Standards* requires the auditor to perform limited procedures on the Authority's response to the finding identified in our audit and described in the accompanying schedule of findings and responses. The Authority's response was not subjected to the other auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on the response.

**Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Authority's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Authority's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Bradenton, Florida

## Independent Auditor's Management Letter

**Board of Directors  
Seacoast Utility Authority  
Palm Beach Gardens, Florida**

### **Report on the Financial Statements**

We have audited the financial statements of the Seacoast Utility Authority (the "Authority") as of and for the fiscal years ended September 30, 2025 and 2024, and have issued our report thereon dated April 16, 2026.

### **Auditor's Responsibility**

We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and Chapter 10.550, Rules of the Auditor General.

### **Other Reports and Schedule**

We have issued our Independent Auditor's Report on Internal Control over Financial Reporting and On Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*; Schedule of Findings and Responses; and Independent Accountant's Report on an examination conducted in accordance with *AICPA Professional Standards*, AT-C Section 315, regarding compliance requirements in accordance with Chapter 10.550, Rules of the Auditor General. Disclosures in those reports, which are dated April 16, 2026, should be considered in conjunction with this management letter.

### **Prior Audit Findings**

Section 10.554(1)(i)1., Rules of the Auditor General, requires that we determine whether or not corrective actions have been taken to address findings and recommendations made in the preceding annual financial audit report. There were no findings or recommendations in the prior year that required corrective action.

### **Official Title and Legal District**

Section 10.554(1)(i)4., Rules of the Auditor General, requires that the name or official title and legal authority for the primary government and each component unit of the reporting entity be disclosed in this management letter, unless disclosed in the notes to the financial statements. The Authority discloses this information in the notes to the financial statements. The Authority has no component units.

## Financial Condition and Management

Sections 10.554(1)(i)5.a. and 10.556(7), Rules of the Auditor General, require us to apply appropriate procedures and communicate the results of our determination as to whether or not the Authority has met one or more of the conditions described in Section 218.503(1), Florida Statutes, and identification of the specific condition(s) met. In connection with our audit, we determined that the Authority did not meet any of the conditions described in Section 218.503(1), Florida Statutes.

Pursuant to Sections 10.554(1)(i)5.c. and 10.556(8), Rules of the Auditor General, we applied financial condition assessment procedures. It is management's responsibility to monitor the Authority's financial condition, and our financial condition assessment was based in part on representations made by management and the review of financial information provided by same.

Section 10.554(1)(i)2., Rules of the Auditor General, requires that we address in the management letter any recommendations to improve financial management. In connection with our audit, we did not have any such recommendations.

## Additional Matters

Section 10.554(1)(i)3., Rules of the Auditor General, requires us to communicate noncompliance with provisions of contracts or grant agreements, or abuse, that have occurred, or are likely to have occurred, that have an effect on the financial statements that is less than material but which warrants the attention of those charged with governance. In connection with our audit, we did not note any such findings.

## Purpose of this Letter

Our management letter is intended solely for the information and use of the Legislative Auditing Committee, members of the Florida Senate and the Florida House of Representatives, the Florida Auditor General, federal and other granting agencies, the Board of Directors and applicable management, and is not intended to be and should not be used by anyone other than these specified parties.

Bradenton, Florida

## SCHEDULE OF FINDINGS AND RESPONSES FOR THE YEAR ENDED SEPTEMBER 30, 2025

---

### SECTION I SUMMARY OF AUDIT RESULTS

#### ***Financial Statements***

Type of report the auditor issued on whether the financial statements audited were prepared in accordance with GAAP: Unmodified

Internal control over financial reporting:  
Material weaknesses identified? ☒ Yes ☐ No

Significant deficiency identified not considered to be material weaknesses? ☐ Yes ☒ None reported

Noncompliance material to financial statements noted? ☐ Yes ☒ No

#### ***Federal and State Financial Assistance***

Federal and state Single Audits were not required as the Authority did not expend greater than \$1,000,000 of federal awards or \$750,000 of state financial assistance funds during its fiscal year ended September 30, 2025.

### SECTION II FINANCIAL STATEMENT FINDINGS AND RESPONSES

#### **2024-001. Contributed Capital Assets – Material Weakness**

**Criteria:** Internal controls should be in place to provide reasonable assurance that all transactions are recorded in accordance with accounting principles generally accepted in the United States of America. As part of the audit process, Finance Department management identified that certain contributed capital assets were not provided to the Finance Department in order to properly record contributed assets and capital assets within the financial statements.

**Condition:** The Authority's internal control policies and procedures did not operate as designed.

**Context:** The Authority's capital assets and net position were understated in prior fiscal years.

**Effect:** An adjustment to beginning net position as of October 1, 2023 in the amount of \$21,675,273 was required. Additionally, for fiscal year 2024, an adjustment was required to record contributions and increase capital assets in the amount of \$12,873,739, to record depreciation expense and accumulated depreciation in the amount of \$767,717, and to record a loss on disposal of capital assets in the amount of \$2,158. These adjustments were required to be made to the Authority's general ledger to properly record capital assets.

**Recommendation:** We recommend the Authority implement a training process to ensure all appropriate personnel follow the Authority's policies and procedures regarding contributed assets.

## **SCHEDULE OF FINDINGS AND RESPONSES FOR THE YEAR ENDED SEPTEMBER 30, 2025**

---

### **SECTION II FINANCIAL STATEMENT FINDINGS AND RESPONSES (CONTINUED)**

**View of Responsible Officials:** Management concurs with the finding and determined that it resulted from a prior Engineering Department reorganization, during which established procedures for communicating easement acquisition and other donated infrastructure information to the Finance Department were not consistently followed. Management has since reestablished formal communication protocols, assigned responsibility to designated personnel, provided refresher training, and ensured all previously omitted asset information has been communicated and recorded in the Authority's financial records.

### **SECTION III FEDERAL AND STATE AWARDS FINDINGS AND QUESTIONED COSTS**

Not applicable.

**SCHEDULE OF PRIOR YEAR FINDINGS  
FOR THE YEAR ENDED SEPTEMBER 30, 2025**

---

None reported.

## Independent Accountant's Report

**Board of Directors  
Seacoast Utility Authority  
Palm Beach Gardens, Florida**

We have examined the Seacoast Utility Authority's (the "Authority") compliance with Section 218.415, Florida Statutes, regarding the investment of public funds during the years ended September 30, 2025 and 2024. Management is responsible for the Authority's compliance with those requirements. Our responsibility is to express an opinion on the Authority's compliance based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. Those standards require that we plan and perform the examination to obtain reasonable assurance about whether the Authority complied, in all material respects, with the specified requirements referenced above. An examination involves performing procedures to obtain evidence about whether the Authority complied with the specified requirements. The nature, timing and extent of the procedures selected depend on our judgement, including an assessment of the risks of material noncompliance, whether due to fraud or error. We believe that the evidence we obtained is sufficient and appropriate to provide a reasonable basis for our opinion.

We are required to be independent and to meet our other ethical responsibilities in accordance with relevant ethical requirements related to the examination engagement.

Our examination does not provide a legal determination on the Authority's compliance with specified requirements.

In our opinion, the Authority complied, in all material respects, with the aforementioned requirements for the year ended September 30, 2025.

This report is intended solely for the information and use of the Authority and the Auditor General, State of Florida, and is not intended to be and should not be used by anyone other than these specified parties.
